

## QUALITY, RELIABILITY, SPEED

UAB Baltic Digital Printing is one of the largest digital printing and advertising producers in Lithuania that has been operating for over 12 years. The company is known and valued on the market as reliable partner, who is able to do the works with due quality and in a timely manner and capable of implementing both complex and urgent orders.

We cooperate with all the largest renters of outdoor advertising areas in Lithuania. We have excellent knowledge in technical, organisational and legal aspects of advertising production and assembly. We can deliver and, where necessary, install advertising material anywhere across the country.

These are only a few of numerous reasons for choosing us and entrusting our company with implementation of the advertising solutions by the largest Lithuanian advertising and communication agencies, the largest retail chains and shopping centres and many other largest advertising customers. Our works decorate not only the advertising signs of shopping centres, display windows, outdoor stands, but also the scenes of official and entertainment events.
